| | |
| | |

Additional Information:
 This proposal was only recently approved by the MaPP department of the CHN, hence the expediated timeline. This is a pilot project between the Local Food Pantries and MaPP, and if it goes successfully, there is a possibility of having fully

funded seasonal field trips available. We are very excited about this opportunity! Because it has been spring break, it has been difficult to be in communication with SD50 staff and families who are away on vacation. As more details are solidified (timelines/dates confirmed, cultural site established) they will be brought forward.
